

Concerning Low Power FM expansion.

I am writing to discourage the FCC to take K-LOVE off the air and replace it with a local access broadcast with unknown agenda.

K-LOVE helps me because the secular stations do not care about family, children or the moral issues. K-LOVE is the one station I know I can trust and doesn't offend me. My children and I can listen to it without concern about content. It is positive and encouraging and it is the best thing that has come on the air waves in years.

K-LOVE gives our nation an alternative to the junk that has nothing but the dollar interest of the stock holders in mind. K-LOVE serves our community with support and with an 800 number it gives listeners the opportunity to get help with emotional needs, 24/7. No other station offers this.

K-LOVE is nationally broadcasted to cut cost and offer more. They have the opportunity to make the world better and that's what they do. I commend K-LOVE for their hard work and commitment for the good of life.

Please do not take away our station. There enough local stations and they have nothing to listen to on them.

Thank you for your time.

Sincerely, Mark Davis-Kovarik
